

Sanicure Granules

Product Name: Sanicure Granules

Product Description: Sanicure is a dry odour absorbent and deodorizer compound. The granules in this product have large number of pores and are capable of absorbing and holding odorous gases thus eliminating foul smell. **Sanicure** can be used in solid waste management areas like garbage compactor rooms, waste collection bins and sanitary napkin collection and disposal bins.

Toxicity of Material: Contents are eye & skin irritating and can cause harm if taken internally. The contents are expected to biodegrade. However, the product may be harmful to marine life if released in natural waters. Contents are unlikely to corrode any plastic surfaces.

Product Appearance: Yellow or green colour granules.

Perfume: Tropical

Packaging: 8.5 , 18, 55 and 170 Kg packaging.

Safety guidelines: Please read safety data sheet (SDS) before use. Follow all safety precautions.

Transportation: Sanicure can be shipped in all modes of transportation.

Waste Disposal: Waste disposal should meet all prevailing regulations.

Sanicure Granules

1. Either toss-in a breathable pouch or sprinkle loose granules in affected area. Top up from time to time before the waste bin is replaced.
2. Dump all waste only at a designated site as per local laws.

Sanicure Granules:

Available in pre-portioned pouche or in bulk quantities.
